

COMPLAINT ON HARASSMENT AND THREATS BY
SNOVASYS SOFTWARE SOLUTIONS

To

The respected superintendent of police

Prakasam district, Andhra Pradesh

11th April 2025.

From

SRIHARI MADDINENI

Kondepi(m), Prakasam(dt).

Andhra Pradesh.

SUB: Regarding the harassment by Srihari kothapalli, Siva byrapuneni from Snovasys Software Solutions Company, Ongole.

The managers and authorities of Snovasys Software Solutions Company are mentally, financially, and physically harassing me and my family, and they are threatening us. I am bringing this to your attention to seeking protection for myself and my family.

Respected sir,

I am SRIHARI MADDINENI, joined as software trainee engineer in snovasys software solutions which I secured through campus placement. During my offer I was asked to submit an undated cheque worth 4,87,000/- as employment security, where I submitted my mothers cheque as I didn't have a cheque book then.

I didn't know about the company before joining and joined the company as it was a campus placement trusting college placements. But right from my joining in the company I faced many issues such as work place harassment, pressure, working hours, and work related issues. Even though I was struggling without raising a complaint, I was suddenly called and informed as if I don't fit for a software trainee engineer role and was moved to some data entry role stating my salary will also be reduced to 10,000/- per month. As I asked for brief explanation and formalities, they (siva byrapuneni and management) behaved very rudely, arrogantly and disrespectfully and forced me to resign by paying money. I denied paying money where they warned me as if they will be going to sabotage and spoil my career. I resigned on the next day (17th aug 2024).

Even after resignation from the company, they further harassed me through their lawyer with warning calls, and text messages as if I should pay 4,87,000/- money or court proceedings would be taken against me and my mother. Further they even filed a criminal case against my mom related to cheque bounce issue, where we received a summons in the month of December 2024.

Upon struggling with this type of harassment for a month I complained against the company to Honourable Chief Minister's Grievance cell in the month of October, where they took up only dispute related to wages and didn't deal with harassment.

The management including, Siva byrapuneni even behaved in a same rude and disrespectful manner with assistant commissioner of labour multiple times which is even reported by the assistant commissioner of labor, Ongole suggesting me to complaint in concerned authorities. (report on December)

I even made a complaint to Collectorate Ongole, in the month of November, regarding the company and their harassment.

The harassment by srihari kothapalli and siva byrapuneni was more increased since I made a complaint to collectorate, and were making false allegations and making false complaints against me in all possible departments. They even filed a criminal case against my mother in second additional magistrate court in Ongole in issue with cheque bounce.

In the month of January I was summoned to Ongole 1 town police station to appear regarding a complaint filed by siva byrapuneni, where I submitted the details of the issue from my side as a counter complaint. The C.I of 1 town police station, after a prolonged discussion with me and the company management, siva byrapuneni, suggested to settle the dispute outside, not filing complaint or taking into consideration of either side.

The next day in the labour department (18th aug), someone named visweswar reddy narala, attended the office of assistant commissioner of labour, Ongole on behalf of company and asked me to attend their Ongole office to solve and close the issue, agreeing to settle dispute. (infront of Asst. Commissioner of labour, Ongole)

The next day (20th jan), the management including SRIHARI KOTHAPALLI, siva byrapuneni and visweswar reddy threatened, pressurized and forced me to sign on documents which states as if I withdraw my complaints and agree as if I made all false allegations, which I denied.

Upon my denial, srihari kothapalli, visweswar warned me in a very rude, offensive and derogatory physical attacking manner which I was very terrified. When I requested to show some mercy srihari kothapalli asked me to apologize personally with atleast 1 lakh rupees. I mailed him apologizing and agreed upon withdrawing my complaints in return to my relieving letter and stopping harassment against me and my mother. Even

then, they were not satisfied and asked me to mail them as if all my complaints were false which upon denying, they spoke with me in a discourteous, and aggressive attacking manner threatening my life and career. I then left the office and didn't go inside till 8.00pm that day as I was said to wait for their decision, which finally turned up into no decision and continued harassment against me.

On one day suddenly, the C.I of 1 town police station at around 11.00pm in the evening called me suspiciously stating they would file a fir and I should immediately appear before them as soon as possible. When I asked about my complaint I submitted, and details, he denied stating, the complaint was missed somewhere and will be going to file the case against me, where then I contacted Respected **superintendent of police** Prakasam (dt). through mail and made a complaint.

Though the issue seems to be settled for some time, visweswar from the company filed a false code theft and data theft case against me in Madhapur, Hyderabad. The inspector of the station clearly asked for valid and genuine proofs else not to waste their time, which they failed to submit.

Then they again started harassing from Ongole 1 town police station, filing false and fake case against me in a criminal offense which is clear that it is a criminal intimidation against victim, just because I started revealing their unethical labour practices, and fighting against them.

This is not the first time in which the company involved in such type of issues. Previously the company management harassed few employees too in a similar manner to exploit them financially. As per my knowledge, the company management including, srihari kothapalli, siva byrapuneni and giri yendluri are the ones playing key roles in such extortion behaviour for money.

Subject: Formal Complaint Regarding Bonded Labour and Exploitative Employment Practices by Snovasys Software Solutions

Respected Sir/Madam,

I, Srihari Maddineni, a resident of Mittapalem, Prakasam District, am writing to seek your urgent intervention regarding serious exploitative and illegal practices by Snovasys Software Solutions, Ongole. This company's actions violate labour rights and laws in multiple ways, subjecting employees, including myself, to coercive and inhumane conditions.

In October 2023, I received a job offer from Snovasys Software Solutions for the role of Software Trainee Engineer with annual CTC of 6.5 LPA. However, before issuing the official offer letter, the company demanded that I submit an undated cheque as a guarantee of employment. I joined in May 2024, trusting in the company's promises. Soon after, I faced continuous harassment, and the company abruptly changed my role to a Data Research and Entry position without any formal communication or consultation. This confusion and mismanagement led me to resign on August 17, 2024. However, from August 12, the management had been coercing me to pay Rs. 4,87,000, threatening to file a cheque bounce case if I did not comply.

Despite mentioning the need to complete formal exit procedures in my resignation letter, the company did not reach out for any closing formalities within the required 30 days. They blocked my access to all work accounts immediately upon resignation, leaving me without communication or access to essential information. However, over a month later, they contacted me with intimidation tactics, including repeated threats of cheque-related legal actions. Additionally, I received a legal notice sent to my home, which included both my name and my mother's, further heightening the stress and intimidation faced by my family.

I have already registered a formal complaint with the labour office regarding these issues. However, I was informed that their jurisdiction is limited to matters concerning salary issues, and they could not assist me further on issues involving cheque coercion and other unethical practices. This has left me, and others facing similar circumstances, without sufficient recourse.

In addition to this, I am compelled to bring the following exploitative and unethical practices to your attention:

- 1. Forced Submission of Undated Cheques:** Employees are required to submit undated cheques as a condition of employment stating as a formality for office procedures and just for a security deposit and won't be any issue in future, which is used as a tool for financial blackmail, especially during resignations or requests for experience letters. Furthermore, the company refuses to return these cheques even after employees resign or are terminated, leaving them in a continuous state of fear and vulnerability.
- 2. No Joining or ID Card Issuance:** Employees are not provided with any formal joining letter or ID card, essential documents that denote formal employment and help secure their rights.
- 3. Denial of Experience Letters:** The company withholds experience letters, often as a means to prevent employees from leaving or seeking better opportunities.
- 4. Unreasonable Working Hours:** The company imposes excessively long working hours on its employees, with a minimum requirement of 9:00 a.m. to 7:00 p.m. Employees are strictly instructed that they should not leave before 6:30 p.m., even if their work is complete. This restriction disregards employees' time and personal commitments, violating basic workplace rights.

5. Unjust Termination Practices: Employees are often terminated when they are due for salary hikes or other benefits, depriving them of fair compensation and growth opportunities.

6. Lack of a Proper Work Environment: The company provides no structured system of work or conducive environment, severely affecting productivity and well-being.

7. Mandatory Residency Restriction: Employees are forced to reside exclusively within Ongole town and are not permitted to commute from nearby areas or their home villages, which adds unnecessary financial and personal strain.

8. Role Switching Without Proper Hiring: Instead of recruiting new employees for different roles, the company forces employees to shift from one role to another without prior discussion. For instance, I was moved from my designated role of Software Trainee Engineer to a Data Research and Entry role. Furthermore, I was informed that I was "unfit" for the development role stating my salary will also be revised to 12,000 per month and pressurised to accept the data entry role or face termination without an experience letter. This practice puts employees in the difficult position of accepting unsuitable roles or resigning and then being held financially liable according to the terms of the offer letter.

9. Invasive Tracking and Privacy Violations: The company has installed tracking software named "Time Champ" on employee systems. This software monitors activities such as browsing history, key strokes, and idle time. This invasive level of monitoring severely impacts employees' privacy, as it restricts them from performing any urgent personal tasks during work hours. Furthermore, the software tracks all computer activity around the clock, creating a constant atmosphere of surveillance and adding to the stress and discomfort experienced by employees.

I kindly request that your office initiate a thorough investigation into the practices of Snovasys Software Solutions to provide protection and relief to myself and other affected employees. Attached to this complaint are copies of my offer letter, resignation letter, and other relevant documentation supporting these claims.
